

ABOUT VLM

Viprinet Lifetime Maintenance is a bundle of software and service components that was designed to perfectly support the longevity of Multichannel VPN Routers and Hubs. With VLM, access to high-quality support via email and phone, Advanced Replacement (ARMA), and to the newest firm- and software is guaranteed. The extent of included services varies depending on the respective subscription level.

GET VLM!

Register your Viprinet product today and get VLM immediately at <https://vlm.support>

SERVICE PROVIDER

VLM services are exclusively provided by VLM Support GmbH, a dedicated service company. The company is not formally related to Viprinet, and is using the Viprinet brand under license.

Each Viprinet Router or Hub requires a Viprinet Lifetime Maintenance (VLM) License in order to receive support and software updates. To acquire a VLM License, you need to use the VLM Service Portal at <https://vlm.support> and consent to the VLM License Terms and to the VLM Platform Usage Terms there.

SUBSCRIPTIONS – WHICH ONE FITS?

BRONZE

Bronze is available for all Viprinet devices. It's particularly suitable to put devices without any hardware warranty back under maintenance and keep them up-to-date.

SILVER

Silver is the level recommended for all customers who require extended warranty for their devices, and wish to obtain a worry-free package for their products.

GOLD

Gold offers full security for business critical infrastructure, including priority support, ARMA with same day shipment, and free of charge upgrade to successor model in case of EOS.
